YOUNG ITALY.

While California and other American States are falling back, through Democracy, toward tyranny and barbarism, young Italy is carving its way to the castle of St. Angelo, and the sway of Rome, with sharp steel. Whether the attempt of Garibaldi and his countrymen will be crowned by possession of Rome before the French troops arrive or not, the result is sure as fate. Napoleon and the Pope may as well save their blood and money for better uses than fighting to hold the seven hills city. Italy is bound to have it. There must be no more Popish "Imperium in imperio," but Italy must be one. If Victor Emmanuel has bound himself by treaties he has not nor can he bind the nation. If he must fight with France to uphold the Pope, then he may be compelled to abdicate in favor of the Crown Prince, who is of young Italy, or he may possibly live to see the Republic of Italy rise from the ruins of his kingdom. Garibaldi is a statesman as well as a patriot and general. He has always been a republican, but he has accepted what he could get. While the King worked for the unity of Italy, the patriots were willing to second his efforts and support his authority. When he ceased they abandoned him, when he resisted, they fight him. The crisis has come. An Italian army have taken Rome doubtless before the present writing. Once fairly in possession, no power on earth can drive them out. Slaughtered, they possibly may be, but the prestige of such a victory may bring the nation, as one man, into the contest, and then neither French troops nor any combination of French, Austrian and Spanish can conquer them. Prussia will not stand idly by, though England might, to see any alliance of Roman Catholic powers attempt to reinstate the Pope. The propitious hour seems to have come. We shall anxiously await the news of the next few days. Meantime the hopes and prayers of all lovers of man will not cease to flow out for the success of the right. Every true American will hail with great joy the day when Rome shall once more be free.

NEW PUBLICATION.—We have received from H. H. Bancroft & Co., San Francisco, a new form book, together with the decisions touching the uses and applications of the different forms used in the different courts of this State and the States of the Pacific coast. Every form that is required in the legal profession may be found in this publication, and all forms necessary for every description of business, mercantile, mechanical and laborer's contracts, agreements, etc., are clearly set forth, making the most valuable appendage to any man's library that we ever saw. It is a work of 11,660 pages, bound in calf, in two volumes, and can be had by sending to H. H. Bancroft & Co., San Francisco. No lawyer's library is complete without this work.

OUR BIRD.—This office had a present last Tuesday, and all we can say for certain is, 'tis a bird. Some say he is a hawk; others an eagle; others again a falcon. He is three feet from tip to tip of wings, half that from beak to tip of tail. His breast and back are a dark brown; his long, broad tail light brown; the inner or under side of his wings light gray. His beak is quite hooked, and his talons long, sharp and very strong. He is powerful on the flight, and can tear beefsteak beautifully. Somebody is at fault about our various treatises on ornithology. Either nobody ever gave us one, or somebody has borrowed it. One thing is sure, we know very little about birds. Anybody that does can tell you all about our bird.

BUSY TIMES.—Within the last month the Kearsarge mill, eight miles above Dutch Flat, has sent off half a million feet of sugar pine lumber, chiefly to San Francisco. They ship from twenty to thirty thousand feet a day now, and would send forty thousand feet daily if they could get tars enough. They take about half of it to China Ranch, the other half to Alta. As much more lies at the mill, which adds 14,000 feet a day to the stately piles. Some of the wagons commonly used for hauling logs now groan off under 8,000 feet of lumber, be hind five yoke of oxen.

FATAL ACCIDENT.—On Thursday evening last, while Mr. Vauvacter was walking on the bank of the old Jamison claim, at Iowa Hill, he slipped and fell from the bank, a distance of some twenty-five feet, killing himself instantly. He was buried yesterday.

THE Mohawk mill at Meadow Lake recently cleaned up \$12,000, the result of fifty tons of rock crushed at their mill. Pretty good, that, especially when the company has plenty of the same kind of rock left.

LETTER FROM SAN FRANCISCO.

SAN FRANCISCO, Oct. 28, 1867. HUMBLED.

EDITOR ENQUIRER.—It is a matter of much thought for one, while straying through this great city, to notice the many signs of persons who rely solely upon the gullibility of the public for their livelihood. You can scarce walk a block without encountering a sign directing you to walk in and consult Madame Humbug, the Great Natural Clairvoyant, Table Tipper, Test-medium, etc., and gain a clear, concise and truthful account of anything you desire concerning the past, present or the future, picturing your fortune in proportion to the amount of fee obtained. If John Waxall's wife has a few moments of leisure time she forthwith procures an attractive sign, upon which she displays some high-sounding name or title, invests a dollar or two in an advertisement, procures a jack of cards and becomes a teller of fortunes, whereby to "turn an honest penny" at the expense of those unfortunate individuals whom the fool-killer overlooked at the time of making his last trip through our enlightened and intelligent country. Out of curiosity, I counted the number of signs of persons calling themselves astrologers, test mediums, clairvoyants, fortune tellers and healing physicians that prosecute their business here, and they number over one hundred and fifty! Most of these do very well, and one of them has amassed considerable wealth. What a brilliant commentary this upon an educated and progressive people!

AN ACCOMMODATION.
Persons visiting Frisco often wish to see a paper printed in their own county. Messrs. Hudson & McCarty have established what they call the Pacific News Room, where they keep on file every paper published in this State, together with some four hundred others from the different parts of the world. Here, also, may be found a copy every morning of every hotel register in the city, also the Great Register of every county in the State. This news room is free to all non-residents, and is the best place in the city for persons coming from the country to resort to gain information about almost everything. I was pleased to find prominent among the many papers on file the ENQUIRER.

INSURANCE.
A lively competition is being carried on between the many insurance companies of this city; the result of which will be to the detriment of the insured. Of late they take any and all hazardous risks at an extremely low per centage. Already the number of fires among the small dealers has increased one-half. The cause of this change in the per cent. of insurance may be almost entirely attributed to the Builders' Insurance Company. This company started with the intention of monopolizing the larger share of patronage, and have already made a terrible disturbance by their determined course of keeping rates down. Affairs have arrived at that crisis when people are compelled to insure. Thus, if Jones, who is keeper of a small shop, whose stock in trade does not exceed five hundred dollars, insures for five hundred, and reduces his stock one-half or three-fourths, his neighbors become justly alarmed and are compelled to insure to guard and protect themselves.

HEALTH OFFICER'S REPORT.
The annual report of this officer has just been published. By it will be seen that the number of deaths during the year amounted to over two thousand. Of these over one-third were children—an item for the consideration of parents. Connected with this report the Health Officer has exhibited an undue amount of squeamishness in commenting upon the number of children entered under the head of "Stillborn." It strikes me that it is the duty of an officer employed by the people to let the people know the plain truth, so that the evil may be more readily checked. An exhibition of childish modesty in an old practitioner of medicine does not smack of sincerity for the public weal, but on the other hand shows either that there is nothing to tell, or incapacity to deal with the subject so as not to interfere with private practice.

THE PRESS AND MRS. LINCOLN'S WARDROBE.
For the past week the press has found food for column articles on the sale of Mrs. Lincoln's clothing, quite a high-toned subject for the pens of our first class editors. The question has already assumed a political tinge, and there are those among our political seers, who have connected the future destiny of the American people with this "Johnny-hand-me-down" auction of old clothes. If Mrs. Lincoln's wardrobe is worn as threadbare as the question of the propriety of her disposition of them, the result of the sale, pecuniarily, will not assume colossal dimensions.

MORAL ATMOSPHERE.
San Francisco, though in its infancy, will compare with older cities in its record of crime. Scarcely a day passes but some horrible murder is noted. During the past week we have had five shooting scrapes, at least double that number of robberies and two suicides.

ABDUCTION AND ATTEMPT TO MURDER A YOUNG WOMAN IN ORDER TO COVER UP THE CRIME OF ONE OF OUR MOUNTED MEN.
Last evening, Chief Crowley was notified of an attempt to abduct and murder a Miss McDonald. Sometime since Miss McDonald, the arrest of one A. J. Stephenson,

upon a charge of attempt to violate her person. The case was continued, and was about to be brought on for trial within a day or two. From present indications it is more than probable that Stephenson will be connected with this last dastardly outrage. Miss McD. in relating her story, says that while on her way home from a neighbor's house, two men approached her, one of them throwing his arm around her neck, and placing his hand over her mouth, they then forcibly put her into a carriage and conveyed her to a place on Mission creek, where they undertook to tie her hands behind her (in this they did not succeed) and threw her into the creek. Her face and body exhibit numerous signs of cruel brutality. The fiends who have had a hand in this are yet at large.

BULLETIN AND THE GAMBLERS.
That worthy independent (?) sheet has been engaged for sometime past in advertising the many gambling halls, filling their select paper with a description in detail of the whereabouts, the style, and, in fact, giving the people just what the gamblers have so long wished for—that is, a knowledge of the location, and by whom kept, of all the "club rooms" in the city. It is said that a keeper of one of the dens remarked that he would be willing to pay fifty dollars per week to the Bulletin for such puffs as he had received.

THE GAMBLERS AND THE ELECTION.
Over the result of the 16th of this month the gamblers are jubilant, and are hopefully looking for a brightening up of their peculiar business. Every short card player, faro dealer, jayhawker and rounder voted the Democratic ticket—straight—at the late election, and it was understood that if they voted and worked Democratically, their vocation would not be molested under the new reign. So much for the purity of ye godly Democrats.

AMUSEMENTS.
At Maguire's, "Arrah-na-Pogue" kept the stage during the week. At the Metropolitan, "Azael," and an evening of Italian opera composed the bill of fare. The new Minstrel Hall that I mentioned in one of my letters, under the management of Leslie, Raynor & Smith, was thrown open to the public on Friday evening last. The hall is one of the most comfortably arranged in the city. There are kept in attendance waiters who anticipate your every wish. During intermission ice-water and fans are distributed among the audience. It is proposed by the management to re-establish the style of minstrel entertainment that Birch & Backus made so popular years ago. Yours, SKEOTIS.

WHAT WOMEN WILL DO.—A woman has been arrested in Detroit for smuggling tea in her stockings.—*Express.*
In North Carolina the women carry snails in their stockings.—*Raleigh Progress.*

Nothing wonderful. The women of Forsyth carry calves in their stockings. Our devil says he's seen 'em do it.—*Salem Observer.*

And one of our women carries her corn in hers.—*Rome, Ga., Commercial.*

The women in this section who sympathize with Andy Johnson in his fight with the Radicals, carry V toes in theirs, which are very seldom passed over their heads.—*Vincennes, Ind., Sun.*

The women in this county can beat any of the above, as they carry all the articles mentioned in their stockings, with the exception of the tea. Perhaps they might even do better than that, if the stockings were longer. As it is, they do not kneed it.—*Ser. Advertiser.*

The women hereabouts carry their soles in their stockings.—*Exchange.*

Yes, and as the "Hinglishman" would say, their "cels" also. We recorded an instance the other day of one drawing a huge knife from her stocking. A certain class of them always go "heeled" about here.—*Sac. Record.*

Pshaw! our piquant darlings carry a fine understanding in theirs, and also conceal a Bonyparte.

IMMIGRATION.—The San Francisco Immigrant Society met on Tuesday night, 29th ult. Pixley was present, and is reported to have said that it would be much better to look for immigrants to the State in the Mississippi Valley than to the Atlantic cities or Europe. California needs just such men as the farmers of Illinois, Iowa and Missouri. The best route for them is overland, and they can bring with them their horses, cows, wagons and cooking utensils, which would have value and save much expense. He thought the Association should publish large numbers of such documents as the letter read that evening, in English and the languages of Continental Europe, and circulate them far and wide throughout the United States and Europe. He had suggested to Governor Stanford that after the Pacific Railroad is completed, emigrant families should be permitted to hire each a box car for the trip across the Continent, with permission to put in all their furniture, and bunks and cooking utensils, and live in them until they reach California, at a moderate expense. The President said the Society did not want any money from the Legislature, but that the Government should spend \$100,000 in its own way to promote immigration.

CURE FOR TIPLING.—We reprint the following, which we copy from the old Boston *True Flag*, for the benefit of those who want to be sober:

A cure for an appetite for strong drink—Sulphate of lime five grains, magnesia ten grains, peppermint water eleven drachms, spirit of nutmeg one drachm, to be taken twice a day. This preparation acts as a tonic and stimulant, and so partially supplies the place of the accustomed liquor, and prevents that absolute physical and moral prostration which follows a sudden breaking off from the use of stimulating drinks.

FARE REDUCED.—In consequence of the running of the steamer Tulare, as an opposition boat on the Stockton route, the California Steam Navigation Company have reduced the fare on their boats from \$5 to \$1, for the time being.

THE citizens of Cisco are making an effort to have their postoffice removed from the lower town to the upper. We hear that there is some feeling manifested in the matter.

PREACHING at the Union Church to-morrow morning and evening at the usual hours.

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to a persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reaction effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

PROTECTIVE PROPERTIES.

Steadies the Nerves, and tends to prolong Life.

REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent fevers, Spasms, sea sickness, cramps and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or

PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated.

Persons of feeble habit, liable to Nervous Attacks, Loss of Sleep and Fits of Languor find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from

WHISKY AND NEWSPAPERS.—The *British Standard* institutes a comparison between a glass of whisky and a newspaper, in the following terms: A glass of whisky is manufactured from perhaps a dozen grains of malted corn, the value of which is too small to be estimated. A pint of this mixture sells at retail for one shilling, and if a good brand, is considered by its consumers' worth double the money. It is drunk off in a minute; it fires the brain, rouses the passions, weakens the system. It is gone, and swollen eyes, and parched lips, and aching head are its followers. Upon the same sideboard upon which this is served lies a newspaper, the white paper of which costs about two cents. This is covered with a hundred thousand types, it brings intelligence from the four quarters of the globe; it has in its early printed columns all that is strange or new at home; it tells you the state of the market; it gives an account of the war, the execution of the last murderer, the last steamboat explosion or disaster, articles on philosophy, government, religion, etc., and for all this the newspaper costs less than the glass of grog, the price of a few grains of corn. It is no less strange than true that there are a large portion of the community who think the corn juice cheap and the newspaper dear, and the printer has hard work to collect his dimes, when the liquor dealer is paid cheerfully. How is this? Is the only a better payer than the head? Are things of the moment more prized than things of the future? Is the transient tickling of the stomach of so much more consequence than the improvement of the mind, and the information that is essential to the rational being? If this had its real value, would not a newspaper be worth many pints of whisky?

GENERAL P. E. CONNOR.—We find the following in the *Rocky Mountain News*, of October 12th:

We are exceedingly gratified to learn—and are confident that a majority of the people of Colorado will be equally pleased at the announcement—that the name of General Connor will be presented as a candidate for Governor of Colorado when Congress next convenes. It is not probable that the General will be present to urge his claims, since he is not voluntarily an applicant for the place, but they will be presented and urged by his friends here and at Washington, who know and appreciate his worth and fitness. General Connor is a live man, and an honest one. He fully understands and appreciates the Indian question, knows the wants of this and adjacent Territories in respect to wagon roads and railways, and is a fast friend of Colorado in every respect. He will aid actively in the advancement of her prosperity, instead of devoting his time to mere personal advancement and political chicanery.

QUEER TOWN.—A curious discovery was recently made in Brazil. It seems that there is a remote district on the northwestern confines of that empire, which is a town composed of about four thousand runaway slaves. The fugitive negroes have established a municipal government of their own; they have streets well laid out, houses built, and it is now by the nearest chance that the Government has heard of it. The town is called Manso, and it is near the mountains of St. Jeronimo. The townspeople are industrious, but, as women are scarce, they make raiding parties to run away with women in the settlements. One of these women escaped, and gave notice to the authorities of this extraordinary town.

LIVELY CAMP.—The following is reported to have occurred in the town of Plover, Ill., on one day: Two men shot; three street fights; a turkey shoot; a gander drilling; four men sentenced to State Prison for life; a game of draw poker between the County Judge and State's Attorney, wherein the former lost his year's salary, and then whipped a man because he did not understand the game; afterwards, went out and helped lynch his grandfather for horse-stealing. "Verify the world moves" on its axis.

A GOOD OFFER REFUSED.—Mr. Bonner, of the New York *Ledger*, was recently offered \$5,000 to exhibit Dexter and the Auburn horse one day at Washington, but he declined. He says that when the fine new building he is now erecting is completed, he will exhibit both Dexter and the horse, but that at present both Dexter and his mate can be seen "on Harlem lane by any one who can keep up with them."

PACIFIC RAILROAD.—It now seems to be a settled fact that the Railroad will not approach nearer to Great Salt Lake City than Bear River. A branch may be constructed to the city after the completion of the great national road, with a view of extending the same through the Territory in a southerly direction to Palangana, and then to the Colorado river so as to connect with the Gulf of California.

DEED OF PATENT MEDICINE.—A post mortem examination, held a short time since in San Francisco, on the body of Frederick Nohring, who died suddenly, made it appear clearly that deceased had dosed himself to death with patent medicines and pills, nearly every kind of which he had been in the habit of taking for the cure of imaginary illness.

EXTENSION OF MONTGOMERY STREET.—The order for the extension of Montgomery street, San Francisco, which passed the Board of Supervisors some time since, and was vetoed by the Mayor, was passed on Monday evening over the veto, by the requisite two-thirds majority.

Odd that rivers should be so full just where they empty themselves.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the most renowned institutions of the age. What the celebrated establishment of R. C. O'Connell in Paris, this Institute has become to the Pacific coast. The thousands annually received and cured, place it at the point of view of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES AND IRREGULARITIES IN FEMALES are the great destroyers of health. They immediately attack the system, and gradually undermine and destroy it; they drive the blood from the cheek, the lustre from the eye, the strength from the frame; they give to the world pining and diseased offspring, ruin the system, and finally destroy the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiocy, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venereal Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and bring on a speedy death—all early cures.

MERCURY, recognized as the most fatal medicine to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs, eventually attacking the brain, and driving the patient to the grave with a violence that will battle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whose long practice and thorough investigation into the causes of DISEASES OF THE URINARY ORGANS enables him to determine at once the nature of the disease.

In all cases entrusted to his skillful care, PERFECT, SPEEDY AND PERMANENT.

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonorrhea and its accompanying diseases; and all diseases of the Bladder, Kidney, and Prostate, Seminal Weakness, Diseases of the Heart and Lungs; Dyspepsia; Indigestion; Impotency; Impaired constitution, and all diseases of the urinary organs, in either sex, cure always warranted, NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhea

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion, uncontrollable fatigue, the powers of the mind, distant forgetfulness, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing weakness, loss of confidence, power, and suffering other symptoms of disorganization, the positive traces of that terrible and destructive of all diseases Seminal Weakness—wasting away of the powers, derived from the vitality of the blood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dripping out in the darkness of night, and in the existence of a nervous and diurnal exhaustion, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of mankind, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of his happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder all hope he has left. There is no rescue except in proper and skillful treatment. Consult them, at once, a physician whose long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sickrooms with paralytics and consumptives, and the hundreds of nutmeg graves with its mingled victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving the most complete and perfect cure, and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the inquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understands how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father, all in addition can find in him one who will sympathize with and befriend them in trouble—one in whose society the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

The celebrated Female Monthly Pills, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and most reliable for the complete relief of all the various ailments constantly recurring to the female sex, in their action. No lady should be without these Remedial Agents. None genuine unless procured at the original place.

Sent by Mail or Express, to any part of the State, The GREAT FEMALE MEDICINE: PREVENTIVE POWERS FOR MARRIED LADIES. No Safe and Family Use, lasting from four to six months. Price, \$1. To Correspondents.

Patients residing in any part of the State, however distant, who may desire medical advice on their respective cases, and who think proper to submit a written statement of such in preference to holding a personal interview, are assured that their communications will be held most of them in the strictest confidence.

HOPE FOR THE AFFLICTED.—In another part

of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. Young, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished-for relief and cure. Under the care of the skillful Doctor the sick and troubled can dispel themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow its advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco.

MEDICAL ADVICE.—DR. W. K. DOHERTY'S

Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and its rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief.

It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by denigration of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence.

Persons afflicted with either acute or chronic disease, would do well to consult the Doctor at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office. —News
